WELCOME BACK PURGOLDERS!

MSCR hope everyone had a restful and enjoyable fall break!

As we dive back into our school routine, let's stay motivated and focused on the final stretch of the semester. With the colder winter weather settling in, it's the perfect time to bundle up and stay warm, both inside and out. Whether you're tackling projects, preparing for exams, or finishing up assignments, let's make this last stretch count. Don't forget to take breaks, stay hydrated, and keep cozy as we power through to the end of the semester! We've got this!

Program Updates:

Volleyball League:

Congratulations to our Volleyball League team on finishing off strong this season and competing in their final tournament at Memorial High School!

United Asian Club:

MSCR United Asian Club successfully hosted a student-led cooking workshop! The workshop focused on teaching students basic kitchen skills, safety practices, and how to prepare various Asian dishes, including Vietnamese Spring Rolls, Pakistani Pulao Rice, and more.

STUDENT HIGHLIGHT:

IZZY STRINGER

What MSCR clubs are you involved in?

I'm in K-POP dance club, also known as Euphoria :)

What is your favorite part of being a part of the MSCR community?

I made a lot of friends who share my interests! Being in MSCR really brought me out of my shell, and I get to do something I really enjoy. I made good friendships with my members who I wouldn't trade for the world.

What hobbies or interests do you enjoy outside of school?

I like Singing and dancing of course, but other than that.. I enjoy songwriting, playing video games, cooking, and reading. I also like playing with my cats.

What is one big goal or dream you have for the future?

Not sure if this counts, but I really want to work at NASA when I'm older. For a smaller goal though, I'd say work up the courage to perform a solo!

If you could give your younger self one piece of advice, what would it be?

JUST DO IT. When I was younger I had so much stuff I wanted to do, but hesitated. I regret not learning how to draw, for example, earlier on in life. I could have been so good by now. Take opportunities and enjoy life.

STUDENT HIGHLIGHT:

BIRDIE LEE

What MSCR clubs are you involved in?

K-pop dance club & Volleyball Club

What is your favorite part of being a part of the MSCR community?

The community. Such an amazing group of people. All the staff are so nice and it's so fun getting to meet new people with the same interest as me.

What hobbies or interests do you enjoy outside of school?

Love playing volleyball. I'll play it with my friends a lot on the weekends. I also listen and dance to K-pop a lot outside of school for fun. I do a lot of art as well.

What is one big goal or dream you have for the future?

Graduate college probably. Huge thing for me and I'm excited to graduate!

If you could give your younger self one piece of advice, what would it be?

Try new things. Don't be scared to do stuff. I'm super introverted and it showed when I was a kid and I chickened out of a lot of stuff because I was so nervous to try them.
